

North America and some other parts of the English-speaking world. But the relationship with Europe remains relatively under-developed. Comparisons, contrasts and relationships between the life and thought of the churches in varying contexts, provide much of the spice of history. So what about a continental Baptist historical summer school one year?

#### BETTER PRINTING

In our publications we are grateful to Mrs F. Bowers for all the effort of typing, and to Rank Xerox for reproduction etc., but we hear from time to time questions about the quality, especially about justification of the right-hand margin, which would make reading easier.

In faith we are purchasing a new machine which will enable us to improve the quality and to justify. We hope we can fund this without resorting to the interest-free loan we have been offered.

If members would like to send me donations towards this capital equipment, I shall be pleased to receive such, especially as we shall be holding our subscription rates for a fourth year running.

THORNTON ELWYN
