#### ROSEMARY CHADWICK

This paper was delivered to the Baptist Historical Society Summer School at Bradford, July 1985. The author has just completed a D.Phil. thesis on the Bradford churches at St Hilda's College, Oxford.

#### NOT STRANGERS BUT PILGRIMS

The Lent '86 studies based on *What on Earth is the Church for?* were part of the first year of the three-year inter-Church process called 'Not Strangers but Pilgrims'. Those who shared in these studies were invited to complete a questionnaire. Significantly, more than 100,000 replies were received. These were analysed and the findings presented in the joint BCC/Catholic Truth Society publication *Views from the Pews*.

The theological faculty of Nottingham University have generously agreed to store the questionnaires for the next five years at least. Researchers may apply to the University for access to them.
