(To be continued.)

Worcestershire Association.

Mr. Mayglothling, J.P., of Worcester, treasurer of the association, has issued a capital record of its history from the foundation in 1836. In twenty-four pages, after a brief introduction, there are lists of the officers, of the meetings of association, of the history of each church. The constitution follows, with record of bequests and of trust deeds. It is not easy to think what else could have been added to round off the compact mass of information.
